

# Metrotile Viksen

## The chaotic structure of hand-split wooden shingles: Metrotile Viksen

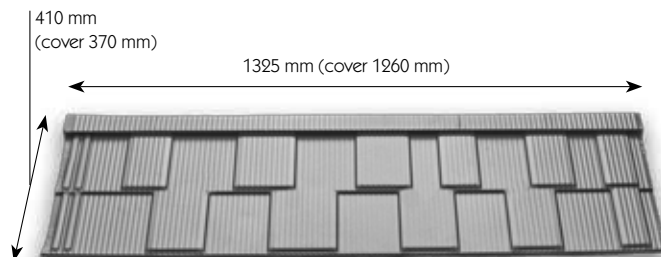

The inspiration for the Viksen Metrotile is to be found in the uniqueness of the ancient Viking architectural style. Used in building construction, their homes and other edifices were built entirely from wood, onto which small roof shingles were then applied extensively.

The hand-split wood pattern is smaller than the wood pattern of the actual Shake profile, thus imparting an individual and rustic character to each building.

Lightweight high grade steel with Aluzinc® coating for incredible strength and resistance. Suitable for all roof shapes.

### Technical details

Maximum pitch	90°
Size of tile - overall	1325 x 410 mm
Size of tile - cover	1260 x 370 mm
Gauge of steel	0,450 mm
Linear cover width	1260 mm
Coverage	0,46 m <sup>2</sup> (2,15 tiles per m <sup>2</sup> )
Weight per m <sup>2</sup>	6,45 kg
Weight per tile	3 kg

### Standard colours for the Viksen

- 
**Damiera**  
**Standard spot colour**  
 Base colour: Black quartz granules  
 Spot colour: At random spots of 'Stone grey' granules
- 
**Torino**  
**Standard spot colour**  
 Base colour: Charcoal quartz granules  
 Spot colour: At random spots of 'Stone grey' granules
- 
**Sparta**  
**Standard spot colour**  
 Base colour: Coffee quartz granules  
 Spot colour: At random spots of 'Ocher' granules
- 
**Milano**  
**Standard spot colour**  
 Base colour: Red quartz granules  
 Spot colour: At random spots of 'Black' granules

\* The colours on the tile may vary slightly to what is shown in this leaflet
