

Metrotile Roman

Metrotile[®]
worldwide roofing systems

An authentic Mediterranean look for your home.

Metrotile Roman tiles have been designed to imitate the look of traditional natural clay roof tiles to give your home an authentic Mediterranean feel. Metrotile Roman tiles with their distinctive shape and pronounced profile are unique among stone-coated steel tiles. A heart of Aluzinc[®] or equivalent/ similar coated steel with advanced stone granule coating guarantees optimal protection for your home.

Metrotile Roman is available in a wide selection of colours. True elegance without the inherent weight and cost.

Lightweight

Light and easy to handle and install.

Durable

Colour stability and protects against UV light.

Stable

Resistance to extreme wind or earthquakes.

Strong

Exceptional strength and resistant to damage.

Fire proof

To be conform with the European standards

Installation of the tiles

The Metrotile Roman five tile panels can be interlocked either right over left or left over right with the side laps of one small corrugation.

The panels are placed onto battens spacing 368 mm.

The downturned front edge and the upturned rear edge of each tile provides a strong, weatherproof, overlapping and interlocking roof covering. Each panel is secured by nails in the front downturned edge into the side of the batten, positioned out of the water course.

Each panel or accessory can be cut or bent in the shape of the roof. It is important to use tools recommended by Metrotile.

Accessories

Metrotile offers a broad choice of accessories that fully integrate with the Metrotile Roman profile.

■ Ridges, junctions and end caps.

For use on ridges and hips in angle, square, rounded shape.

■ Barges, flashings and finishings.

For roof covering at foot, gables, verges, barges, against walls.

■ Other accessories.

Like ventilation systems, roof windows, light tubes, integrated solar panels, clear tiles,...

■ Installation equipment.

Everything you need for installation: nails, benders, guillotines,...
